REPORT OF THE BOARD OF SELECTMEN

The annual report of the Board of Selectmen for the year 1984 is hereby submitted.

During 1984 the Board held 46 public meetings. In addition to the annual Town Meeting, a Special Town Meeting was held in September.

In April, Leo R. Harlow was re-elected to the Board. Reorganization of the Board in May resulted in the re-election of Selectman Leo R. Harlow as Chairman and Richard B. Lane as Clerk.

The Board, as Licensing Authority, held many hearings concerning the approval and issuance of liquor licenses and auto dealer's licenses. There were also hearings concerning alleged violations of licenses and failure to comply with stipulations concerning certain licenses. The Cable TV License issued last year has become serviceable, and although there are still some rough edges to be smoothed, over 2,000 homes are now enjoying Cable TV.

We were able to settle contracts with all departments without disruption of service and in a generally amicable manner. The Town voted to override Proposition 2½ on the Fire Station debt and to increase the amount to be spent to somewhat over $900,000. The contract has been signed and construction shall begin in the spring.

The Computer Advisory Committee's recommendation was approved and the Town has purchased a computer to make our departments run more efficiently and at less cost. The Cable Television, Library Study, Personnel Advisory, and all other committees have continued to do an outstanding job. Particular thanks should be given to the Fire Station Building Committee for overcoming some difficult obstacles and persevering.

The Board of Selectmen, after a lengthy search, appointed David Brown Fire Chief and he has been doing an outstanding job. The Town also appointed a new head of the Dept. of Public Works, a Mr. Howard Sheavitz whose work has been superior. A new Highway Superintendent, Edward C. Jacobson, has also been doing a fine job. We have been fortunate to find such hard working and conscientious help.

The Board has continued to keep a close eye on all operations in Easton, particularly in regard to public safety, water purity and new well sites, care and maintenance of public ways and buildings. We also were successful in our hearing before the Dept. of Public Utilities in regard to improving our telephone service.

The Board would like to thank the Town Administrator and all public employees for their continued hard work and support of our aims. We also would like to thank all those citizens who have volunteered for committees and worked hard to make them successful. Also, we would like to encourage others to become a part of government by participation on committees. With the help of all these facets of democracy, we can look forward to secure for Easton safe water, good roads, fine schools and a community of people helping one another to a better way of life.

Last of all we would like to thank our State Representative, William Vernon, and State Senator John Parker for their cooperation and assistance. Also, we thank and commend all those citizens of Easton who volunteer their services to enrich the lives of the young, make the way easier for the elderly, and generally add to all our lives. For without a community effort ours cannot become the best of environments.

Respectfully submitted,

Leo R. Harlow, Chairman
Richard B. Lane, Clerk
James D. Mullen, Jr.

BOARD OF SELECTMEN

REPORT OF THE TOWN ADMINISTRATOR

I am pleased to submit my second annual report as Easton's Town Administrator.

The year 1984 saw the continued efforts of this office to assist, organize and direct the various Town Departments in order to provide the best possible service at the lowest possible cost. I feel over the past year I have accomplished this goal with the assistance of the various Department and Division heads.

A situation that has hampered the efficient delivery of services has been the constant turnover in management personnel over the past two years. Each time a position if filled, momentum built up by the previous incumbent is lost. Time is wasted while the new person becomes acquainted with the Town and the position. Among the new Department or Division heads appointed over the past year were Howard Shaevitz, DPW Director; David Brown, Fire Chief; Edward Jacobson, Highway Superintendent and Val Muscato, Recreation Director. Each of these appointments has had a tremendous impact in their respective departments and I wish them very long and successful tenures.

The current fiscal picture of the Town is good but uncertain. State and Federal reimbursements, along with large annual increases in the areas of debt, Service Pensions, Health and General Insurance, threaten the fiscal well-being of the Town. To alleviate a serious fiscal situation, either new sources of revenue must be found or there must be reductions in the increase in spending from year to year.

The Fiscal 1986 budget I presented to the Board of Selectmen and Finance Committee contains increases in those areas that I feel are required to provide quality service to the community. Unfortunately, large increases in those areas listed above place severe restrictions in those areas where some discretion is possible.

After the Town's fiscal situation, the sanitary landfill is the next most pressing matter facing the Town. Currently the DPW is preparing the necessary documents and plans to seek a vertical expansion in the current landfill. If approved, the vertical expansion will meet the needs of the Town through the 1990's. This will allow sufficient time to undertake the necessary study to determine alternatives available to the Town for future solid waste disposal. Long term planning in this area is most important, and for that reason the Board has created a Solid Waste Study Committee to undertake a study of this matter.

As Easton's Town Administrator I feel I have brought an open and helpful attitude to the position. This attitude is shared by the overall staff of the Town and I feel has resulted in better delivery of services. Monthly department meetings have been instituted to allow a free discussion on the needs and problems of the Town. These meetings have resulted in changes being made in methods of operation which can only benefit the residents of the Town.

I again stress, as I did in last year's report, that I feel the major function of my position and this office is to provide whatever assistance possible to any resident, Board, Committee or Commission in the Town.

In closing, I wish to thank the Board of Selectmen for their assistance and support over the past year. I also wish to thank the various Departments for their assistance and dedication over the past year, and particularly Belle Paulino for her day to day assistance.

Daniel J. Morgado
TOWN ADMINISTRATOR

REPORT OF THE FINANCE COMMITTEE

The Finance Committee is a broad based committee of 15 members who serve without pay or expenses. The function of the committee is to review departmental budgets and warrant articles authorizing expenditures of appropriated funds, and to recommend action on these items to the Town Meeting. Another function is to approve transfers from the Reserve Fund to cover unanticipated expenses occurring during the fiscal year.

Statistics indicate that only 5% to 20% of the registered voters attend Town Meeting. Essentially, the Finance Committee attempts to represent the average voter, present or absent at Town Meeting, who is not an advocate of any particular project and who is open to any proposal that promotes good and economical operations of the town. Our recommendations to the Town Meeting are those which we believe the average voter would make if he had access to the information developed at the many reviews conducted by the Finance Committee.

As of this writing the Committee has completed reviews of expense budgets, new hires, and capital expense items for all departments except schools and Board of Health. Salary adjustments of unionized employees are fixed by the two year contracts negotiated last year. Adjustments for non-union employees have not yet been reported to the Committee.

Although the school department budget is still not final, five members of the Finance Committee have attended school committee review meetings. We appreciate the cooperation of the School Committee in providing our members with printouts of the draft budget and permitting us to participate fully in discussions of the budget items with the department heads.

For the future we see problems from inflation which although reduced in the last few years is still pressing against the limits on taxation imposed by 2½. Of particular concern are the uncontrollable increases in insurance costs, and the annual assessment on the town for the pay-as-you-go pension system. These issues will be better defined at the time of Town Meeting and may affect our recommendations to the meeting.

On the plus side the Committee feels that town operations are becoming more efficient. Of particular note are management improvements in the Fire and Public Works departments.

In closing we would like to express our appreciation to the Town Administrator Daniel Morgado, to the department heads, and to the Town Boards and Committees for their cooperation in facilitating the work of the Finance Committee. We also thank the voters of the town for their support and we solicit their comments and recommendations on our work.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Easton School Committee:

As Superintendent of Schools I hereby submit my fourth report and the ninety-ninth in a series since the Town authorized a Superintendent of Schools. This report reflects some of the accomplishments for the 1984 year and is a partial summary of the reports of the administrators of the system.

School Enrollments

1984 was a year of increased enrollment in the first grade which required the appointment of an additional staff member. It will be interesting to watch to see if this is the beginning of a trend with the building of condominiums and new homes. The overall enrollment indicates stability. However, there is a lot of migration taking place.

Administration

Aubrey Conrad, Assistant Principal of the Oliver Ames High School, was transferred to the Junior High School. Richard Lillis was transferred from full-time at the Junior High School to half-time at the Middle School. Suzanne Rivard was appointed Assistant Principal at Oliver Ames High School.

Curriculum

The social studies and science curricula in Grades K–6 were approved by the Easton School Committee during this calendar year. The reading and mathematics programs have now been in place for two years and are beginning to show positive results. We are presently reviewing the English and foreign language programs at the high school and junior high school. The Curriculum Coordinating Council, under the leadership of Andrew Miller, Jr., Assistant Superintendent of Schools, has recommended revisions throughout all curriculum areas during this year and 1984.

Special Needs

Enrollment has increased and we are continually meeting the needs of the students in accordance with the prototypes.

Elementary

Basic skills testing indicated an increase in the test scores of the students of Easton. We attribute this to our basal programs in reading and mathematics. The Sheep Pasture program K–5 has exposed the students to outdoor living and those essential concerns about our environment.

Assertive discipline workshops were conducted and the program was implemented K–5. Many of the elementary schools had major musical productions such as "Peter Pan," "Annie," and exerpts from the popular Broadway musicals. The HAL (High Ability Learners) program met the needs of those high ability students in related activities.

The Teacher-For-A-Day program was successful and an enriching experiment for the students. The Easton Jaycees, with the assistance of the Moreau Hall parents, revitalized the playground by installing new equipment and repairing some of the existing equipment. Films about child molesters were shown in the various buildings in order to protect our children.

The PAL (Play and Learning) program was again very successful as an informal approach to kindergarten. If the enrollment continues to grow, an additional section will have to be added.

The use of computers in the elementary schools was more widespread as teachers became trained and found the time to share their expertise with the students.

Secondary

Easton Junior High School

The assertive discipline program is in effect in the Easton Junior High School and appears to be very successful. Common midyear and final examinations have helped stabilize and will eventually validate our curriculum. Basic skills tests were administered again in 1984 with over 90 percent of our students achieving minimum standards in all areas. Those who did not pass were remediated and retested.

Teachers that were transferred between the junior and senior high schools adjusted quickly, efficiently and effectively. Grade Seven Harvard-Milton Study Skills Program, which is part of the social studies program, has produced some outstanding results.

Oliver Ames High School

Oliver Ames High School has been selected as one of the six schools to represent the Commonwealth of Massachusetts as an outstanding high school in the national recognition program sponsored by the United States Department of Education.

Continental Cablevision's studio is now housed in Oliver Ames High School and students are beginning to take courses in this valuable addition. Three new department heads were appointed: Donald Harrison, Mathematics; Francis Ialenti, Foreign Language; and George Larson, Science.

Fifty percent of the graduates of the Class of 1984 went to four-year colleges. Of the Class of 1984, 68.9 percent went on to further education. It appears that the increased requirements for graduation are meeting the needs of our population.

Bruce Palombo is advising the Students Against Drunk Driving program at Oliver Ames High School, which is a very active program at the present time. Calculus has become a reality in the mathematics program, as well as PASCAL in computer education. The summer reading program was strengthened in both English and social studies and will be further refined.

Easton was the host to the Hockomock Senate in April, a valuable simulation of a model United Nations. Three students won Boston Globe awards for art. We congratulate all those students; two National Merit Semifinalists, athletes, music students, Honor Society members, and others for their valuable contributions to the overall program at Oliver Ames High School.

The foreign language department again had a very successful exchange program with Venezuela.

Parent Advisory Council Activities

Throughout the school system, parent advisory councils have contributed a great deal to enrichment activities with support and expertise. Dedicated parents and volunteers have made many of our enrichment activities successful. They have bridged the gap during this period of fiscal restraint.

Combining their efforts, they brought in Jim Trelease to discuss reading and reading difficulties. They have brought in storytellers and many other resource people. All of grade four went to the "Nutcracker Suite" ballet. Grade five took a trip to Heritage Plantation.

At budget time parent advisory council members have supported the schools at Town Meeting. They have raised money to help teachers pay for the incidental costs and have provided computers, VCRs, TVs and cameras. They give so much to our school system to help maintain quality. We applaud their efforts.

Closing Comments

It is an enjoyable experience to reflect on the year of 1984. So many positive things have happened. Our school budget was approved. A school maintenance bond issue was approved. There has been tremendous support for curriculum changes, validation of curriculum, and support for our staff and their efforts. This report only touches on some of the highlights.

Every day is a great day in the educational process in the Town of Easton. We are fortunate to be working with an exceptional educational staff that is dedicated, students who are concerned about their future, and a community that believes in having quality. Yes, we are fortunate. The Easton School Committee goes far beyond the required time demands. They are accessible, criticize when criticism is necessary, praise when praise is required, and make policy to sustain an already fine educational program. On behalf of myself and the staff, I want to thank the Easton School Committee and the taxpayers for all their support.

Respectfully submitted,

George P. Lane, Ed.D.
SUPERINTENDENT OF SCHOOLS

REPORT OF THE SCHOOL COMMITTEE

The Easton School Committee submits the following report for 1984. After the re-election of Richard E. Hall and Robert Nisenbaum, an organizational meeting was held in April. William J. Gloekler was elected Chairman and Donald E. Anderson Vice Chairman.

The School Committee was deeply involved in approving a number of currecula in 1984. Many of these changes will have lasting effects on the total educational process. The teaching staff and administration developed these curricula and made formal presentations during the school year. Copies of approved curricula are available at the main office on Washington Street. The School Committee commends the Curriculum Coordinating Council for its efforts in the standardization and revitalization of curriculum.

Student enrollment has developed an interesting pattern. Easton is a growing community and it is difficult at this time to project just where increases and decreases will take place. During 1984 we had to add an additional first grade, which means that in 1985 there will be an additional second grade. We will continually monitor this to see if the trend of additional growth will continue. This compounds our concern regarding fiscal constraints. We are still concerned about our inability to economically fund teaching needs, library equipment and books, textbooks, and the teacher-student ratio in some of our classes. Our budgets are not making major gains in these areas. It is just about supporting the fine programs already in place.

The Easton School Committee reaffirmed their quest for excellence by raising the requirements for collegebound students upon the recommendation of Duncan B. Oliver, Principal of Oliver Ames High School. College preparatory graduates from Oliver Ames High School will have to pass, in addition to the regular requirements, three years of mathematics, three years of science, and two years of a language. This will start with the Class of 1988. This will put the High School program in the forefront for graduation requirements throughout the Commonwealth.

Cablevision has become a reality and the studio has been put in operation at Oliver Ames High School. We look forward to this as a viable vehicle for improving communications within the town, as well as a technical opportunity for our students. We will continue to publish the **Easton School News** four times a year so that every household will know what is happening in the public schools.

The New England Association of Schools and Colleges progress report for Oliver Ames High School was reviewed and submitted to the Association. The Athletic Subcommittee was established and guidelines were set up for the control of boys' and girls' athletics. The Teacher-For-A-Day program was a success, one which involved people from all quarters of the community coming into the classrooms and teaching for a day. We hope to see this project continue.

Reorganization of the administration at the high school and junior high school took place in June, which we believe improved the efficiency of both buildings. Also, a total of some 40 odd staff were transferred between buildings. The Easton School Committee feels that bringing new talent into a building and the sharing of talent adds a great deal to the learning process.

The Basic Skills Testing results indicate that Easton students have achieved minimum standards and have continued to increase beyond minimum standards in grades three, five and eight.

Evaluation forms for coaches were approved, as well as the HAL (High Ability Learners) safety belt program. A bond issue was approved at a special town meeting for maintenance of buildings, and we are going forward with those projects, hoping to have them completed by September 1985.

This is a capsule of some of the activities that have taken place during the school year. We want to thank those people who have given so much over the years and express our appreciation to Helen L. Doherty who retired in June after twenty-seven years of service to Easton Public Schools. May she have a long and happy retirement. We also want to thank those groups of students, individual students, and staff who have brought honor to the school system. We express our appreciation to a dedicated staff and administration for their cooperation and leadership.

The cooperation between the various town departments enables us to perform our responsibilities and duties in a most effective manner. We enjoy representing the Town of Easton. We enjoy seeing the results of making policies that sustain a positive educational environment in the Town of Easton. All this would not be possible without the support of you, the taxpayers and citizens of Easton.

REPORT OF THE WATER RESOURCES ADVISORY COMMISSION

To the Honorable Board of Selectmen:

The Water Resources Advisory Commission is pleased to submit this annual report.

On May 19, 1984 the Commission, with assistance from the League of Women Voters, The Natural Resources Trust, Lions Club, and Easton's Fire Department, conducted a Household Hazardous Waste Collection Day. Eleven 55 gallon drums and three 24 gallon drums of waste were collected by a licensed hazardous waste collection firm. Wastes included flammable and corrosive liquids, paint, photographic chemicals and banned pesticides. The wastes were disposed of at out-of-state licensed hazardous waste sites. Publicity for this event included distribution of 7500 flyers (in annual reports, through the schools and as handouts at Town Meeting, civic organizations and local businesses. Posters were placed throughout Town and ads and articles appeared in the newspapers. The publicity itself was a good educational tool.

The Commission believes the collection day was a valuable educational program. We strongly recommend that another collection day be held in 1985. Members are willing to help with publicity.

In August 1984 the Commission submitted the following list of recommendations to the Board of Selectmen:

1. Groundwater studies should be done at the earliest possible time to determine the area of influence and recharge area for each of Easton's town wells and for identifying future wells.

2. A household hazardous waste collection day should be held annually. It should be run by the D.P.W. with help from civic groups and be funded by money appropriated at town meeting for that purpose.

3. The Town should create a full-time paid position for a hazardous waste coordinator/inspector of underground tanks and other potential contamination sources. Perhaps the position could be combined with that of the health agent. Septic systems, as one important source of groundwater contamination, should be closely monitored, both during and after construction.

4. All potential contamination sources for Easton's wells should be identified and mapped, including underground tanks, disposal sites, industries and businesses that use hazardous materials, septic tanks and areas where pesticides and fertilizers are used. Once mapped, potential problem spots can be identified and investigated.

5. The Town should have all the underground tanks it owns tested regularly to be sure they are not leaking and maintain strict inventory control of products stored.
6. The Town should purchase the remaining land around the Red Mill Road wells to protect them from contamination.
7. The Town should establish a priority to survey and set boundaries on Town-owned land around Easton's wells to prevent encroachment.

At this time the Commission would like to add these recommendations:

1. The Town should conduct a careful review of road salting practices and make appropriate changes to protect our wells from contamination by road salt.
2. The Town should expand its effort to cooperate with Mansfield and Norton to protect the Red Mill Road aquifer which extends beyond the Easton border.

In response to an earlier recommendation by the Commission, a tank has been placed outside the gate at the Easton landfill on Prospect Street to collect used crankcase oil. Crankcase oil is a very hazardous groundwater contaminant. Residents are urged not to dump used oil on the ground.

Several important water supply protection measures will appear on the annual town warrant this year. We urge residents to support purchase of land for three well sites off Red Mill Road. Permanent ownership by the Water Division of the land that supplies our wells with water is by far the most effective way to protect our wells from contamination. A portion of the purchase price may be reimbursed by the State under DEQE's Aquifer Land Acquisition Program. This is a highly competitive program and Easton's Water Division prepared an excellent application without benefit of outside consultants. This Commission commends the division for an excellent job.

The Commission urges support for a hydrogeologic study to determine the extent of the cone of depression around each of our wells. This information is absolutely essential to the protection of our water supply. It will allow us to determine whether contamination sites threaten our wells and to develop a protection program that will be targeted and effective.

Adoption of regulations for underground storage tanks is also essential. Gasoline from leaking tanks has already contaminated water supplies in several Massachusetts communities. Gasoline contains many chemicals, including some that cause cancer. It contaminates both the groundwater and the soil above the groundwater and is difficult and prohibitively expensive to clean up. All underground tanks should be carefully installed and regularly monitored. No new tanks should be located within the land area that supplies our wells with water. The risk of contamination is too great. Existing tanks within those land areas should be removed or if that is not possible very carefully monitored. Once a leak is discovered it is too late.

We would like to take this opportunity to commend our Water Division, under the able supervision of Wayne Southworth, for an outstanding job in maintaining and upgrading our present supplies and for taking many steps to protect our wells from contamination. Easton is very lucky to have such a capable and forward-looking Water Division staff.

Finally, we want to remind each resident that protection of Easton's groundwater depends on every individual. We urge residents to save their hazardous wastes for the Hazardous Waste Collection Day, to dispose of used motor oil in the tank located at the landfill and to be cautious about products they put into their septic systems or dump on the ground that could contaminate groundwater.

Respectfully submitted,

Charles Callan, Chairman

WATER RESOURCES ADVISORY COMMISSION

REPORT OF THE WATER DIVISION

To the Honorable Board of Selectmen:

I respectfully submit the following report and pumping record for the year 1984.

MONTH	GALLONS PUMPED	MONTH	GALLONS PUMPED
January	36,532,200	July	46,636,000
February	34,436,000	August	52,308,700
March	40,128,500	September	44,326,000
April	41,072,000	October	41,360,000
May	43,107,000	November	39,220,500
June	47,426,200	December	39,470,000

Total Gallons Pumped - 1984 — 506,023,100

The greatest amount pumped in one week was during the week of August 26th — 13,131,000 gallons were pumped.

The greatest amount pumped in one day was 2,270,000 gallons on July 15th.

The Water Division responsed to 2,544 service and emergency calls.

Connected 358 new services for a total of 4,845 active services.
Renewed 1 water service.
Dug up and repaired 11 service leaks.
Thawed out 14 services.
Dug and replaced 30 old fire hydrants and replaced with new traffic breakaway models.
10 hydrants were hit by automobiles: 7 were repaired and 3 replaced. (Vehicle owners or insurance companies were billed for repairs)
Repaired 8 broken water mains:

1 – 6" Main	7 – 8" Mains

In 1984 new subdivisions added to our system:
- 7,140 feet of 4" water mains.
- 1,500 feet of 6" water mains.
- 6,180 feet of 8" water mains.
- 12 new fire hydrants.

The Water Division supervised the installation of 3,020 feet of 12" ductile iron water main; 2,770 feet of 16" ductile iron water main and 12 new fire hydrants. This project started at the intersection of Main Street and Washington Street (Route No. 138), proceeding North on Route No. 138. The project will be completed in the spring of 1985, ending in the vicinity of the Motel 138. The new pipeline and hydrants will improve the fire protection in the Unionville area, reinforcing the old and undersized mains. It is also the trunk line connecting the new 2 million gallon storage tank to the rest of the system. The tank is to be constructed on a parcel of land to the rear of No. 41 Washington Street, south of the Motel 138.

A rate increase is anticipated for July of 1985. This is necessary to provide funding for the ongoing system improvements: the new 2 million gallon storage tank and land purchases in the Red Mill Road area to protect our present and future water supply.

This has been an unprecedented year for the Water Division: connecting 358 new services, 20,610 feet of water main and 20 new hydrants added to our system for a total of 112.6 miles of water main and 804 hydrants.

I would like to express my appreciation to all department heads and employees for their assistance during the year and to my own employees, Dorothy Stone, Jacqueline Worden, Carl Hillstrom, Richard Buckley, Raymond Keyes, Christopher McKenna, John Fresh and John Marsh for a job well done.

Respectfully submitted,

Wayne P. Southworth, Superintendent
WATER DIVISION

REPORT OF THE FIRE DEPARTMENT

To the Honorable Board of Selectmen:

I hereby submit the report of the Easton Fire Department for the year 1984 since my appointment in April.

I am extremely proud of the professionalism and manner of the Firefighter's in their responses to all emergency calls.

The Department has answered 2,621 emergency calls, of which 822 were Ambulance runs. These runs have increased every year due to the population increase.

The 1976 Ambulance must be replaced in 1985, making the 1980 Ambulance a back-up.

865 inspections were made throughout the town by the on-duty men which reduces manpower response on the Ambulance and Engine calls. The need for a full-time inspector is imperative to enforce the State and Local Fire Prevention Rules and Regulations.

The firefighters have given many free man hours to the department for repair and maintenance of the apparatus that only the department is aware of, this I greatly appreciate.

Station No. 3 is progressing and should be completed by 1986. It will require at least eight (8) men for manning around the clock.

I would like to thank the Town Officials, Boards and the citizens of Easton for their cooperation given to me as Chief of the Department.

Respectfully submitted,

David W. Brown, Chief
FIRE DEPARTMENT

REPORT OF THE POLICE DEPARTMENT

To the Honorable Board of Selectmen:

I am pleased to report that consistent with the national trend, serious crime is down significantly at the local level. For example, Breaking and Entering is down a small percentage, however, the clearance rate is up considerably; in fact, more than doubled. We anticipate a decrease in the crime picture during the current year.

I have commended one of our young officers for his initiative in implementing an Officer Friendly Program. It is funded through Sears Roebuck Foundation. The program was put into effect this fall and has been well received in the elementary schools and scouting groups. Such efforts have resulted in an increased community awareness and have enhanced the image of our police department.

In an effort to maintain the best and most efficient organization possible, this year the Department purchased a new Copier Machine and a Mini-portrait Camera with Photo Cutter and Laminator. This gives us the ability to take photos for identification purposes and is a source of revenue for the town. Also in accordance with the contract between the State of Massachusetts and the Criminal Justice Information System, we acquired a new computer terminal.

I would like to express my appreciation to all members of this Department for their support and to other department leaders and personnel in the Town of Easton for their assistance throughout the year.

The Easton Police Department is always striving to better serve our community. I call upon the citizens of Easton, through our Neighborhood and Crime Watch Prevention Programs, to share in a relationship of mutual cooperation.

Respectfully submitted,

Walter Healey, Chief

REPORT OF THE DIRECTOR OF PUBLIC WORKS

To the Honorable Board of Selectmen:

I respectfully submit the report for the year 1984.

This Department continues to maximize its efforts to be responsive to the needs of the Town and to the concerns of its residents. There are, however, constraints which do limit the amount of work that can be accomplished. These constraints include the number of personnel available, equipment, funding, weather and time. In a growing community such as Easton, there is not enough time to schedule all that should be done.

This Department provides services to almost every board, commission and department within the Town government. Department personnel understand that a function of their department is to serve other Town agencies. However, as the Town grows, the services provided these agencies increase and detract from the regular work load.

Three major personnel changes occurred during 1984. On April 10 Edward Jacobson assumed the position as Highway Superintendent. On April 17 I assumed the position of Director of Public Works/Town Engineer. On November 9 Frank Ribelin, RLS, resigned his position as Assistant Town Engineer. I wish to thank him for his service and dedication to this Department.

A major concern to all residents is the sanitary landfill. This Department resurveyed the landfill in order to develop the necessary information to obtain approval for extending its life. A weighing program was initiated. Discussions began with the Commonwealth which are intended to lead to the formal request for the extension.

With the acquisition of Metacomet, New Pond and Old Pond by the Conservation Commission, this Department has been given additional responsibility in land management and conservation.

This Department's three superintendents, Daniel Amorim, Edward Jacobson and Wayne Southworth, are conscientious in their work and are anxious to provide improvements to Town facilities. They deserve recognition for their commitment.

I am appreciative to all Department personnel for their efforts to construct, maintain and repair Town facilities and for the cooperation extended to me.

Respectfully submitted,

Howard Shaevitz, P.E.
DIRECTOR OF PUBLIC WORKS

REPORT OF THE HIGHWAY SUPERINTENDENT

To the Honorable Board of Selectmen:

I respectfully submit the following for the year 1984.

The following streets were resurfaced with Type I mix: Purchase Street, Depot Street from Route 138 to Turnpike Street, Turnpike Street from Depot Street to the West Bridgewater line, Mill Street, Sunset Drive and Hollis Road.

The D.P.W. parking lot was also resurfaced with Type I mix.

Corrective drainage was done on Purchase Street, Mill Street and Dean Street.

Culverts were cleared of brush and debris.

Twenty-three (23) catch basin and manhole covers were adjusted.

Excess gravel was removed from the edges of Purchase Street, Prospect Street, Pine Street, Poquanticut Avenue, Mill Street, Allen Road and Bay Road.

A maintenance schedule has been set up for all town vehicles, of which there are seventy-one (71).

Our 1947 Adams Grader was restored along with three (3) other town vehicles. Thanks to our maintenance and body shop personnel, our fleet of vehicles is in good repair.

Due to the number of town vehicles and the sophisticated engines, we are in need of more modern equipment such as an engine diagnostic machine.

The need for more manpower is getting greater with every new development. The Town hasn't added any personnel to the Highway Department since 1954 and the Town has tripled in population and added 24.65 miles of new roads for a total of 120.65 + or – miles.

I would like to thank the Director of Public Works, all Department Heads, Fire Chief and Police Chief for their cooperation and help since I became Highway Superintendent in April 1984.

I would also like to thank the men of the Highway, Landfill and Maintenance Divisions for their cooperation and help and congratulate them on a job well done.

Respectfully submitted,

Edward C. Jacobson
HIGHWAY SUPERINTENDENT

REPORT OF THE
TREE, BUILDING AND GROUNDS SUPERINTENDENT

To the Honorable Board of Selectmen:

I respectfully submit the following report for 1984.

Thirty-nine (39) flowering trees and fourty-three (43) shade trees were planted in various areas throughout the Town. The project of planting flowering crab apples on Center Street started several years ago and was completed this year. Five hundred (500) white flowering dogwood seedlings were purchased and distributed through the school system to all fourth and fifth grade students.

Trimming of dead and dangerous limbs was done in various areas of Town. Low and obstructing branches were cut as well as brush on several streets, curves and corners. Fifty-six (56) dead or dying shade trees were removed, not counting the many trees that were damaged or broken from the March 29th high winds and snow. This storm caused considerable damage. It took approximately two months to clear utility wires and hanging limbs and to clean up all the debris.

High density oak areas were sprayed for Gypsy Moth. Gypsy Moth activity appeared to decline again this year. Indication for Gypsy Moth buildup in several areas of the state have been reported. Hopefully any building will bypass this area. Spraying for aphids on shade trees was done as needed.

At the request of several property owners, poison ivy eradication was done on their property. Poison ivy eradication was also done along several roadside areas. Weeds and grasses along gutters and sidewalks were also sprayed.

Custodial work was done daily at the Town Offices and Department of Public Works when time permitted. The east wing at the Town Offices and the personnel area of Fire Station No. 1 were painted, both by contract. The deteriorated copper roof valleys at the Town Offices were replaced by contract.

At the DPW building a fire rated ceiling was installed in the main mechanic bay area. Lunch/locker room and office were refurbished. The ladies room was completely renovated. An outside entry way was added to the Engineer's office. At the landfill building a new overhead steel door replaced a wooden door that was continually broken into and a burglar alarm system was installed.

Electrical, plumbing, heating and other maintenance was done on all buildings as needed and as required.

All cemeteries and grounds were cleaned and raked of winter debris. A growth retardant was applied to most cemeteries and other areas that are mowed. Mowing was done on a regular and on an as-needed basis.

Repairs, clean-up, painting and additional sand was completed at the pool area. Wooden dock No. 3 was replaced with concrete dock prior to refilling the pool. Several hundred thousand gallons of water from a fire hydrant had to be used in addition to water being pumped from the well to have sufficient water depth for swimming classes and general swimming.

I wish to thank the Town Administrator and the Director of Public Works for their assistance. I also wish to thank the Division Heads and their personnel, the office staff, and the capable personnel in my department for their help and assistance throughout the year.

Respectfully submitted,

Daniel B. Amorim

REPORT OF THE BOARD OF HEALTH

In compliance with Section 28, Chapter 111, Massachusetts General Laws, it is our pleasure to herewith submit to you a summary of the work done under the jurisdiction of the Board of Health for the year 1984.

At the annual election in April 1984 Donald F. Craig was re-elected. We was also re-elected Chairman at the organizational meeting. Appointments made by the Board include: Plumbing Inspector George E. Sawyer, Assistant Plumbing Inspector Robert A. Govey, Agent Mary P. Connolly, Milk Inspector John D. Melin and nominated John D. Melin as Animal Inspector who was then appointed by the Director of Animal Health, Department of Agriculture. The Board appreciates the services rendered by the Engineering Division of the Department of Public Works. The contract with the Community Health Agency, Inc., was renewed on July 1, 1984.

Plumbing Inspector George E. Sawyer reports that 285 plumbing permits were issued in 1984, each requiring a minimum of at least two inspections.

Milk Inspector John D. Melin collected samples of milk throughout the Town, including schools and restaurants. Samples were tested at Oliveria's Laboratories and notices sent. All milk dealers and other establishments dispensing milk were licensed.

During the year inspection of all dairy cattle, dairy cows, horses, ponies, sheep, swine and beef cattle were inspected by the Inspector of Animals, John

D. Melin. Animal bites were followed up and the animal quarantined the ten day period required by law. The heads of four animals were transported to the State Lab and found to be negative for rabies.

The following diseases were reported to the Board of Health during 1984: Chickenpox (227, Strep Infections (16), Dog Bites (33), Gonorreha (9), Salmonella (3), Scarlet Fever (5), Hepatitis (6), Cat Bite (2), Human Bite (1), Meningitis (1), Legionaires Disease (1) and Measles (1). These were all reported as required and the necessary follow-ups made. 21 Lead Level reports were received and several homes had to be deleaded. Notice of 196 births were made to the Board and given to the Community Health Agency for follow up. There were two premature births and 3 high risk infants. Reports on the follow-up of three active tuberculosis cases were maintained. 45 burial permits were returned to the Board. 46 death certificates were certified and burial permits issued before filing with the Town Clerk. Of the 46 deaths occurring in Easton, 28 died from Cardio-Respiratory Diseases, 13 from cancer, 2 from pneumonia, 1 from malnulvine, 1 from drowning and 1 from a fractured skull. 25 died at home, 18 in a nursing home and 3 at miscellaneous sites.

Many inspections were made under the applicable public health codes and the DEQE codes which are enforced by the local Board. Follow-ups were made to ensure that the required corrective action was taken. The Board appreciates citizen input in reporting anything they feel is a violation of a health code to the Board office.

The Board is continuing to work on finding a permanent solution for Septage Disposal.

In cooperation with the Department of Public Health, the Board participated in promoting the wearing of seat belts during the 101 days from Memorial Day to Labor Day. The Board is continuing their efforts in this regard on an ongoing nature and urges everyone to "buckle up."

Early in 1984, when the EDB problem arose, considerable time was spent monitoring retail outlets to ensure that banned products were removed. Mary P. Connolly was named to the State EDB Advisory Team which worked with Food and Drug as consultants. The team was composed of District Health Officers and representatives of local Boards.

In February, Mary P. Connolly took the examination and was certified by the Commonwealth as a Health Officer. She is also serving her second term as President of Southeastern Association of Boards of Health.

In the spring, at the request of the Board, Mary applied for and was awarded a grant from the Division of Dental Health to bring the Fluoride Mouth Rinse Program to the elementary schools at no cost to the Town. This program has been extremely well received and the Board is grateful to the School nurses and the volunteers who are administering the program.

The annual rabies clinic for dogs was held in the Spring. Dr. William Lloyd was in charge and the cooperation of the Dog Officer, Animal Inspector and Department of Public Works was appreciated.

Many residents took advantage of the Flu Immunization Clinic in the Fall. Through our contract with Community Health Services, Inc., screening clinics for the elderly, well child conferences, immunization clinics, mantoux testing, lead paint poisoning screening and many other preventive health measures were taken. We have worked closely with the School Department and the nurses in the various health preventive programs and in follow-up of diseases. We also work with Stonehill College and Southeastern Regional School.

Permits issued by the Board include: Funeral homes, trailer park, day camp, campground, non-alcoholic beverage manufacturer, transport offal, disposal works construction, installers, food service establishments, mobile food servicers, message, milk, plumbing, bakery, catering and to operate swimming and special purpose pools.

Up-to-date immunization requirements for foreign travel are available at the office and health certificates for passports may be obtained and validated at the office.

Monitoring of stuffed toys in retail outlets to insure compliance with Licensing Laws and Regulations of the Commonwealth is on-going.

Commissioner Bailus Walker, Jr., has established a priority list for FY'86 toward the prevention of avoidable illness and premature deaths as follows: Chronic Diseases, including environmentally-induced diseases; infant mortality; nutrition; childhood injuries and accidents; lead poisoning in children; prevention and control of addictive disease; access, quality and cost of health care and prevention of foodborne illness and intoxication. The Board will be developing programs in cooperation with DPH.

The Board works closely with local, regional and state agencies in a continued effort to safeguard the Town and the Townspeople in matters of public health. The Board appreciates the cooperation of other Town Agencies.

Respectfully submitted,

Donald F. Craig, Chairman
George Luke
Robert J. Kane

REPORT OF THE
AMES FREE LIBRARY OF EASTON

The annual report of the Ames Free Library of Easton, Inc., for the year ending December 31, 1984 is hereby submitted.

During the year 1,439 titles were added to the library, bringing the total number of volumes in the collection to 48,032. Of the 1984 additions, 796 were adult and 643 juvenile. The circulation of 65,542 books represented a gain of 367 over last year's fivure, 34,181 of these being circulated in the adult section and 31,361 in the children's room.

The 1984 increase of 174 book acquisitions over the number for 1983 is attributed to the unusually large number of gift books donated to the library during the year. Mrs. William H. Ames, donor of the William Hadwen Ames Memorial Room for Children and Honorary Life Member of the Board of Directors, was the largest contributor, making donations for the upkeep and book purchases of the children's room. Among the other donors was an Easton resident presenting a check for $1,000 to be spent on books in memory of his wife. A former resident sent a check for $25 to be used for the purchase of children's books in memory of her sister. Both the Clover Club of Easton and Easton Garden Club made contributions of books in memory of deceased members, the former giving a set of books in memory of Mary L. Lamprey, longtime Ames Free librarian.

Library activity for young people included spring and autumn story hours for pre-school children. A summer reading club based on the theme of the circus was carried on during July and August for youngsters in grades 1 to 8, with memberships open to pre-schoolers whose mothers read stories aloud to them. There was a total enrollment of 117 children, with 69 of them reading and reporting on 10 or more titles.

The Library Board of Directors, realizing that most communities of comparable size are offering considerably more varied services than Ames Free Library can provide, considered it their duty to bring this fact to the attention of the town. The Selectmen have appointed a committee to study the problem and make recommendations.

As in other years, the library building attracted many visits from tourists, practicing architects and students of the fine arts from all parts of this country and abroad.

REPORT OF THE
LIBRARY EXPANSION STUDY COMMITTEE

Following a suggestion made at Easton's April 1984 Town Meeting relative to the use of vacant school buildings, the Library Expansion Committee was formed. The question of a branch library was ruled out after a survey at the November polling places and the Ames Tree Library Trustees revealed an overwhelming and enthusiastic response favoring additional and improved library services in Easton. The Committee met with the Trustees of the Library who indicated they are not able to participate in any program of expansion of library services in Easton.

Recently the Committee met with a representative from the Massachusetts Board of Library Commissioners who offered much insight and many suggestions. We also met with the Director of the Ventress Memorial Library, Marshfield, where there existed circumstances similar to Easton's.

Requests for Proposals (RFPs) were advertised and the Committee hosted a group of designers who toured the Town to view various sites, including the Eastondale and Furnace Village schools. The designers have been instructed to evaluate the question of renovation versus new construction.

Because the scope of the project is requiring much field research, the size of the Committee was increased from six to nine members. However, the Committee would like to encourage Easton residents to become active in supporting this project and goal for a high quality, modern information resource center to complement the Ames Free Library.

REPORT OF THE VETERANS' SERVICES DEPARTMENT

During 1984 a total of seventy (70) veterans and their families were assisted through this department.

Fifteen (15) families received financial assistance with ordinary living expenses and/or medical expenses. Funds for these veterans' benefits came from local taxes. The State of Massachusetts will reimburse the Town of Easton for a portion of the veterans' benefits issued. This reimbursement increased from 50% to 75% for all benefits issued on July 1, 1984 or later.

Fifty-five (55) veterans or their dependents sought assistance with Veterans' Administration claims or with needs in other areas. Veterans contacted me to complete fuel assistance applications, to receive government surplus food or for assistance with Social Security claims, SSI applications, health insurance claims and nursing home placement. As Veterans' Agent I was called on to assist veterans with either information, direct service or a referral to the appropriate agency that could help solve their problems.

The Veterans' Services Department was open Monday through Friday from 8:30 a.m. – 12 noon and 1:00 p.m. – 4:30 p.m. I made home visits to those veterans who, because of poor health, could not come to the Veterans' Services Office for assistance.

I wish to thank the members of the Board of Selectmen for their continued cooperation and support of the Veterans' Services Department.

Respectfully submitted,

Dolores M. Kent

REPORT OF THE CONSERVATION COMMISSION

To the Citizens of the Town of Easton:

In the year 1984 the Conservation Commission added two parcels of land to the Wheaton Farm. Parcel 1 was a gift from Thomas L. Coughlin of 3.34 acres off Dean Street and Parcel 2 of 8.75 acres which was purchased from Charles P. Barboza is located on the west side of Bay Road. Also received was a 6.679 acre piece of land off Washington Street near Calvin Road from Vinebrook Realty Trust.

The final steps of acquiring the 1983 Self-help parcels were completed in the Spring of 1984 with the following four pieces of land: two parcels abutting Wheaton Farm of 40 acres; the 110 lot subdivision known as 'Metacomet' in the center of Easton; and 107 acres including Old Pond and New Pond in the Historic Easton Furnace District.

The Wetlands Protection By-Law under which the Commission operates saw us with twenty-one Determinations for the Applicability of the Wetlands Protection Act and a total of thirteen Order of Conditions issued. Some of the parcels acted upon were for single family homes, yet action was also taken on three subdivisions, for a total of 84 lots and three condominium developments totaling 137 units.

The Conservation Commission would like to thank all of the Town boards and officials who have assisted us in making our recent land acquisitions possible, but most particularly Town Counsel Martyn Lincoln, the Board of Selectmen, Board of Assessors, the Department of Public Works, the Finance Committee and Town Clerk Esther C. Anderson. We would also like to thank our fellow citizens for their continued support.

REPORT OF THE EASTON HISTORICAL COMMISSION

The Easton Historical Commission has continued to identify, register and promote an awareness of the historic assets within the town.

The Commissioners are encouraged by the financial support of the private sector to continue this program.

The major events during the past year were the formal dedication of the Furnace Village Historical District in May 1984 and the Centennial of the North Easton Railroad Station in September 1984.

The Easton Historical Society should be commended for the latter event. It was an educational and social success.

The members would like to express their appreciation to Duncan Oliver for his dedicated service as a Commissioner, especially in his endeavors for the listing of the Furnace Village District in the National Park Registry of Historic Places.

The Commissioners do want to emphasize the concern for long-range plans of controlled growth in the town. The historic nature of the three districts; the Bay Road, the North Easton Village and the Furnace Village, must be protected and the other assets, such as the South Easton Green, the Town Pound, the Rockery and certain pre-European sites must also be included in these plans.

The Commission appreciates the cooperation of the various governmental offices and the townspeople for their support during the past year.

REPORT OF THE EASTON HOUSING AUTHORITY

To the Residents of Easton:

The Authority's 144 elderly, 3 family and 10 Section 8 housing units have been tenanted for the entire calendar year of 1984. Additionally, the Authority opened 40 units of elderly housing at our Parker Terrace site and 7 units of family housing at the Foundry Street site. The Authority also tenanted 10 units of Section 8 housing units.

The Authority is actively pursuing funds for the increasing needs of the Town. The Authority greatly appreciates the efforts of the Town and its citizens for their continued support of current and planned housing programs in the Town of Easton.

REPORT OF THE COUNCIL ON AGING

During 1984 the Council on Aging provided transportation, nutrition, recreational and referral services to the elderly residents of Easton.

Transportation remained a top priority. Our new 13 passenger shuttle van was put into operation in September. The van was purchased with funds from the Town of Easton in addition to a federal grant obtained through Old Colony Planning Council and rider contributions. Because of the reduced capacity of the new van, additional shopping trips were added to the schedule in order to serve all seniors who requested transportation. In addition to the shuttle service, volunteers, using their own cars, drove elders to their medical appointments when the trips could not be scheduled on the shuttle van. Volunteers' mileage reimbursement was provided by Old Colony Planning Council, Area Agency on Aging.

The hot lunch programs, operated by Old Colony Elderly Services, continued at the Senior Center, Parker Terrace, North Easton. Lunches were served Monday through Friday at noon. Our Meals on Wheels program grew so that approximately 30 lunches each weekday were delivered to homebound seniors.

Recreational programs at the Senior Center included aerobics, ceramics, knitting, line dancing and needlepoint classes. The Council on Aging also sponsored a candlepin bowling league at Maple Alleys, Brockton, a golf league at Pine Oaks Golf Course, South Easton, eleven day trips and five overnight tours.

The Council published a monthly newsletter which was mailed or delivered to every elderly household in Easton. This newsletter contained information on the Council's programs and news items of interest to seniors. The staff and volunteers took fuel assistance application, issued senior I.D. discount cards, installed Vials of Life and distributed government surplus food to low-income residents. The Director made home visits to complete health insurance forms, Medicaid applications and fuel assistance applications. She made referrals to area agencies to obtain homemakers, home health aides, income tax preparation and legal assistance for elderly residents.

The Council on Aging would like to thank the Board of Selectmen, the Finance Committee, the Easton Housing Authority and the residents of Easton for their cooperation and continued support of our elderly services and programs.

REPORT OF THE RECREATION COMMISSION

To the Residents of Easton:

The Easton Recreation Department experienced a rewarding year with the additional programs and growth in total participation.

The Summer Playground Program introduced a new concept of centralization by functioning only at one playground and that being the spacious, aesthetic Frothingham Memorial Park. This contributed to an increase in daily enrollments and supervisors. The obvious benefits was a variety of concurrent programs because of additional help and participants. Age grouping also was more attractive to the enrollees. Weekly field excursions continued to be a very attractive sidelight for the program.

The ever popular instructional and recreational swimming continued to flourish. The conclusion of the summer program featured the traditional swim champsionships for the Easton residents and a record-breaking number of entries competed.

Instructional co-educational Tennis at Oliver Ames High School tennis area during the six week session attracted 150 youthful candidates. This activity operated on an exclusive self-supporting principle from registration fees. Mid-August the tennis tournament was conducted for both boys and girls with contributions from the Easton Tennis Club paying for the attractive awards.

Two major innovations during the summer activities was an extremely successful Band Concert from the Newport Navy contingent hosted at Frothingham Park, and an elementary grade level Track and Field Fun Meet at the Oliver Ames High School Tiger Stadium. Contributions from the North Easton Savings Bank and Shaws and Osco Drug of North Easton benefited these two events.

The Fall/Winter/Spring Programs continued to function smoothly from the past. These included Aerobics, Women's and Men's Volleyball, Basketball (Open Gym and Over Thirty Men's Group), Baton Twirling, and Blue Hills Ski Instructional School. All of the programs were totally self-supporting from registration fees.

Ninety-five participants enjoyed a one-day excursion to Pat's Peak, Henniker, New Hampshire for both instructional and recreational skiing. Also introduced during the fall of 1984 was the Special Needs Recreation Program which consisted of a variety of specialized activities which included Basketball, Cooking, Bowling, Dancing and Arts and Crafts.

The Recreation Department is highly appreciative to the School Committee, Superintendent of Schools and Building Principals for their cooperation in utilizing their facilities to meet the recreational and social needs of all those involved.

The Recreation Commission also appreciates the encouragement of the Selectmen, Finance Committee and the Town Administrator in funding the programs. Not to be overlooked is the major contribution of the Park Department for their effort, time and energy to prepare the programs.

REPORT OF THE
EASTON PLANNING & ZONING BOARD

To the Citizens of Easton:

The events of 1984 verify the desirability of the Town of Easton and the continued rapid growth of the Town and intensify the Planning & Zoning Board's existing concerns as to the ability of the Town to accommodate these growth patterns.

During 1984 the Planning & Zoning Board has been actively engaged in pursuing functional land use utilization in order to successfully confront the environmental, ecological, and social issues. We must continue to promote optimum land use through effective community planning in order to assure the satisfactory relationship of man with his environment. Functional and effective community planning is a primary requisite for the purpose of protecting the safety, convenience and welfare of the public.

Two major issues surfaced which demanded prompt and appropriate attention of the Board. First, adherence to apartment unit requirements, and in particular the utilization of other rooms as bedrooms. Swift action by the Board, with the cooperation of the Building Inspector, restrained the widespread abuse. The second issue was conformance to site plans approved by the Board. Now, prior to an occupancy permit being issued, the Planning & Zoning Board will inspect the site and determine acceptability thereof.

In addition to our normal work load, a greater portion of our time during the past year was devoted to community planning. Some of the achievements include:

1. Complete physical inspection, street by street, of safety and planning related issues.
2. Site inspections of approved plans.
3. Drafting of zoning revisions.
4. Implementation of the revised updated subdivision regulations.
5. Site design review to include a dialogue with owner and lessee with respect to hazardous, toxic, and lethal chemicals utilized in buildings which may be emitted to the atmosphere by liquid, solid, or gaseous means. All applicants must submit a complete OSHA form to the Planning & Zoning Board for review. This completed form is also forwarded to various departments for their use. In particular to the Fire Department to address the fire fighting methods to extinguish fires in buildings where possible chemicals could be hazardous to fire fighters and to the public.
6. Close coordination with the Building Inspector regarding weekly issues.
7. Recommendation to the Building Inspector to use the market value of structures being built for fee purposes.

8. Increase of fees for applicants submitting documents to the Board for review.
9. Promoting growth in the industrial zone.
10. Coordination with other town boards with respect to related issues.
11. Dialogue with developers regarding land to be utilized for open space purposes and transfer to town property.
12. Work shops on drainage related items.
13. Review of hazardous intersections.

Other issues which are being addressed by the Board and require attention involve the street signage, curb cuts, off street parking, sidewalks, drainage, and growth management.

Five preliminary subdivision plans were approved: Pleasant Acres Estates, located off Depot Street at No. 500, consisting of six lots; Greystone Acres II, located off Bay Road and Allen Road, consisting of eleven lots; Indian Mound, located off Turnpike Street at No. 398, consisting of three lots; Borderland Estates, located at Allen Road and Rockland Street, consisting of twenty-eight lots; Heritage Glen, located at Foundry and Prospect Streets, consisting of twenty-nine lots.

Twelve subdivisions were approved: Evan Circle Estates, located off Bay Road, consisting of two lots; Seaforth, located off Summer Street, consisting of a 600' road; Greystone Acres Section II, located off Allen Road and Bay Road, consisting of eleven lots; Unity Meadows, located off Lincoln Street, consisting of seven lots; Pleasant Acres Estates, located off Depot Street, consisting of six lots; Indian Mound, located off Turnpike Street at No. 398, consisting of three lots (condominiums); Seaforth, located off Summer Street, from the 600' previously approved to Summer Street, consisting of a total of fourteen lots; Camelot Estates III, located off Poquanticut Avenue, consisting of thirty-four lots; Gas Light Village II, located off Foundry Street at No. 506, consisting of four lots (condominiums); Heritage Glen, located off Foundry Street, consisting of thirty-nine lots; Timberland Estates, located off Allen Road and Rockland Street, consisting of thirty lots; High Plains, located off Highland Street, consisting of four lots.

Twenty-seven site plans were approved: 197 Bay Road, Easton Baptist Church classroom building; Lot B-2-C, 33 Norfolk Avenue, Interstate Coffee; Greenwood Village —— amended site plan; 472 Foundry Street, Brockton Credit Union; 588—590 Washington Street —— alterations; Lot B-1-A, 10 Plymouth Drive —— revised, Pop Tops; 75 Foundry Street, Lot 2B, 24 condominium units; Bay Village, Lots 3 and 4 —— revised; Lot A-2-F, Norfolk Avenue, S & D Printing; Lot A-2-G, 23 Norfolk Avenue, Interstate Uniform; 31 Eastman Street —— warehouse/distribution/office; Lot B-1-A, 10 Plymouth Drive —— revised, Pop Tops; 282 Washington Street, Al's Discount Liquors; 135 Belmont Street, Plantation Products; 682 Depot Street, Maplewood Ice Cream; 679 Depot Street, North Easton Savings Bank; 275 Washington Street, Easton Cooperative Bank, 38 Foundry Street —— used car lot; 646 Washington Street, D'Angelo's Plaza; Stonehill College —— dormitory; 227 Bay Road, Newstamp Lantern; 18 Oliver Street –– revised; Lot 9, Village Street –– revised; 594 Turnpike Street –– mini-storage warehouses; 11 Columbus Avenue, Casey's Superette; Lot B-4-C/A-2-F, Norfolk Avenue, revised, S & D Printing; Lot A-1-G, 23 Norfolk Avenue, addition, Interstate Uniform.

In 1984 appreciation for assistance, cooperation and guidance is extended to John Pires, Inspector of Buildings; David Brown, Chief – Fire Department; Howard Shaevitz, Director – DPW. The cooperative effort by the town bodies reviewing proposals has been extremely helpful.

We appreciate the efforts by William Glover and Steven Anderson for their contributions during the period of time as board members.

The administration of the Planning & Zoning Board office was competently managed by Carol A. Bliss. Her efforts are appreciated by all board members.

The continued support and cooperation from all concerned citizens who have worked with us in the pursuit of good community planning is greatly appreciated.

Respectfully submitted,

REPORT OF THE CEMETERY COMMISSION

During the past year maintenance has continued and repair of stones has been done in many cemeteries. We shall continue to repair and straighten monuments as far as possible. During the year Daniel Amorim and his men planted maple trees along street edge of Bay Road Cemetery and Cynthia Drake Cemetery on Church Street. We purchased a brush cutter for cemetery work at a great savings through the Maintenance Department.

The cemeteries are in excellent condition, and a special thanks is in order to Daniel Amorim who is in charge of maintenance, and to Allan Hopkins his foreman.

In 1985, besides defining boundary lines on small cemeteries, we will be striving to place metal pole and name signs on as many cemeteries as possible within budget restrictions.

We thank Mr. Daniel Morgado, Town Administrator, for his advice and counsel throughout the year.

Sincerely,

Clyde A. Craig
William Lahey
Oscar Peterson (deceased 11/84)

CEMETERY COMMISSION

REPORT OF THE
BRISTOL COUNTY MOSQUITO CONTROL PROJECT

On June 30, 1985 the Bristol County Mosquito Control Project will complete twenty-six years of service to the cities and towns of Bristol County.

The mosquito control project works year round in its efforts to reduce mosquito breeding sites and adult mosquito populations. The Project uses several different measures of control in its never-ending fight against mosquitoes.

Winter Pre-hatch – To treat breeding areas that are accessible only on the ice during the winter months.

Spring and Summer Larviciding – To reduce the emergence of adult mosquitos in areas where mosquito larvae is present.

Catch Basin Treatment – To stop mosquito emergence from rain-filled catch basins and storm drains.

Light Trapping Program – To monitor mosquito populations as to their type and number – a program necessary in encephalitis surveillance. Light trapping of mosquitos is also useful to determine what areas have high mosquito populations and should be sprayed.

Water Management – A year-round endeavor to clean and construct mosquito drainage ditches in low land swamps to reduce their favorability as breeding sites for mosquito larvae.

It is the policy of the Bristol County Mosquito Control Project to use pesticides that are environmentally safe so that the safety of the people and environment are not jeopardized. We use as many of the biological insecticides as are practical with the environmental conditions present in the New England area. We are presently using three different formulations of B.T.I. in our larviciding program.

All of our spray equipment is calibrated periodically in order to insure that dosage rates remain at safe levels but are adequate to reduce mosquito populations. The operators of our spray equipment are state certified pesticide applicators that are required to attend classes on pesticide safety on a yearly basis.

In sensitive areas such as where bees are kept, no spraying will take place provided we are made aware of these areas. All spray trucks have a list of beekeepers which is continually updated; but with more people keeping bees, it would be very helpful if those people would notify our office. Also, any person that has a sensitivity to pesticides and does not want their property sprayed should contact either our office or notify the town or city clerk before April 1st and we shall honor their request.

The 1984 mosquito season got under way in mid May with large populations of spring brood type mosquitos appearing in many areas of Bristol County.

During the time span between March 6th and June 7th, a total of 26.09 inches of rain fell throughout most of Bristol County. This excessive amount of rain caused swamp and lowland flooding which in turn became prime mosquito breeding sites.

With most indicators pointing to a more serious encephalitis outbreak during the 1984 season than in 1983, all project equipment and personnel were pressed into service in May to get a handle on the situation as soon as possible. Spray crews began working six days a week, concentrating their efforts in those areas of high virus activity during the 1983 mosquito season.

Our light trap mosquito surveillance program was set up and collecting data nearly one month earlier than usual. Light trap data keeps us abreast of areas of high mosquito infestation and the types of mosquitos present. This data is supplied to the virus lab and our spray crews on a daily basis to keep them informed of mosquito activity. As the mosquito season progressed, virus levels began to rise at an alarming rate; but with our extended control measures, we were able to reduce mosquito populations greatly and no human cases of encephalitis appeared in Bristol County during the 1984 mosquito season.

With the end of the spraying season, our work turned to water management projects. At this time crews cut brush and clean debris from existing ditches and streams in order to insure a better flow of water from normally wet areas. A total of 1,625 feet of brush was cut from ditches and 3,300 feet of existing drainage ditch cleaned of debris. Our crawler tractor also dug 850 feet of drainage ditch.

I would like to thank the Town officials and the people of Easton for their continued support and cooperation and look forward to serving them in the coming year. Should anyone have a question as to what might be done to relieve a mosquito problem in their area, whether it is water management work, treatment of a breeding site, or just having an area checked, please feel free to call our office.

Respectfully submitted,

Alan W. DeCastro, Superintendent

REPORT OF SELF HELP INCORPORATED

Self Help, Inc., is Greater Brockton's and Attleboro's anti-poverty agency dedicated to improving the quality of life of limited-income individuals and families and making all segments of the community responsive to the needs of limited-income disadvantaged and minority needs.

During the program year ending September 30, 1984, Self Help, Inc., received a total funding of $12,006,267 and provided 578,338 direct services to the area's limited-income individuals and families.

Easton residents received 2,066 direct services totaling $176,365 during our program year.

The total funding of $12 million does not tell the real value of human services delivered to the area as a whole. Self Help's funding enabled us to mobilize an additional $954,823 of other community resources such as PIC, Commonwealth Service Corps and local city's and town's contributions, as well as volunteers. The gross volume of Self Help, Inc., during the past program year was $12.9 million.

Self Help currently employs 253 individuals, many of whom are limited income and minorities.

We feel that the program year 10/1/83 to 9/30/84 was a successful one for Self Help, Inc., and very helpful to our limited-income population. We thank the area's Board of Selectmen, town volunteers and the Selectmen's representative, Ms. Theda Hornung, to our Board of Directors for helping to make our program year a success.

Respectfully submitted,

SPECIAL TOWN MEETING
WARRANT

September 17, 1984

COMMONWEALTH OF MASSACHUSETTS

BRISTOL, SS.

To either of the Constables of the Town of Easton in the County of Bristol,

GREETINGS:

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the inhabitants of the Town of Easton qualified to vote in elections and town affairs to meet in the Oliver Ames High School Auditorium in said Easton on Monday, the 17th day of September, next, at 8:00 p.m. then and there to act upon the following Articles.

ARTICLE 1. To see if the Town will vote to appropriate a sum of money to fund the cost of a Firefighters Entrance Examination, and to determine whether the money will be provided by taxation or by appropriation from available funds in the Treasury, or by borrowing under the provisions of Chapter 44 of the General Laws, or to take any other action relative thereto.

Submitted by Fire Department
Estimated Cost – $3,500.00

ARTICLE 2. To see if the Town will vote as a result of the OCPC Growth Report to recommend to the Board of Health that its Regulations as to Sewerage Disposal System Permits be amended in the following manner:

APPENDIX C – Amend Section 2B to read:

Two test holes must be excavated to a depth of not less than ten feet to determine the nature of the subsoil, presence of ledge, ground water, etc. The results must be shown on a Plan. A percolation test must be made at the proposed elevation of the bottom of the disposal field trenches in the area in which the field is to be located. This must be shown on the engineer's plan. Only one percolation test is required for uniform soil stratigraphy. An allowance must be made for a minimum of four feet between the maximum ground water elevation and the bottom of the disposal field. All percolation tests and final inspections by the designing engineer shall be performed in the presence of a representative of the approving authority.

No percolation tests will be performed during the period June 15th through September 15th. If in the opinion of the Board of Health or its agent the percolation rate, soil suitability or water table level is in question, a percolation test will be required to be taken during the wet season, March 1st through June 1st.

or to take any other action relative thereto.

Submitted by Board of Selectmen

ARTICLE 3. To see if the Town will vote to appropriate a sum of money to pay various bills of prior year in the School Department, and to determine whether the money will be provided by taxation, by appropriation from available funds in the Treasury, or by borrowing under the provisions of Chapter 44 of the General Laws, or to take any other action relative thereto.

Submitted by School Department
Estimated Cost – $4,528.02

WHEREAS acid precipitation in Massachusetts

* is killing fish and other aquatic life in our lakes, ponds and streams, and
* is associated with rising levels of toxic metals in our drinking water, and
* is damaging our Commonwealth's monuments and buildings, and
* is suspected of killing forests, degrading soil quality, and damaging crops;

AND WHEREAS pollution sources within Massachusetts emit significant amounts of sulfur dioxide, and have been estimated to cause between 20% and 30% of the acid deposition within Massachusetts;

AND WHEREAS continuing acid deposition at present levels will cause massive environmental damage to the sensitive water bodies of this Commonwealth;

AND WHEREAS the Governor, acting with and through the Executive Office of Environmental Affairs, has the authority to provide for the protection and reclamation of our natural resources, pursuant to Massachussetts General Laws, Chapter 6A, Section 2–4 and Chapter 21A, Section 2, among other laws;

AND WHEREAS a comprehensive solution to the problem of acid rain requires prompt, effective Federal legislation;

NOW, THEREFORE, BE IT RESOLVED:

That Easton hereby:

* commends Governor Dukakis for his initiative in proposing national legislation to control acid precipitation, and
* calls upon the Governor, acting with and through the Executive Office of Environmental Affairs and its Department of Environmental Affairs and its Department of Environmental Quality Engineering, to impose a cap on the allowable amount of sulfur dioxide that may be emitted in Massachusetts and to set this limit at a level equal to the average of Massachusetts' 1981 and 1982 actual emissions, and

- be it further resolved that if this action is not taken promptly by the administration, that the legislature should pass Senate Bill 1240 directing that Massachusetts' sulfur dioxide emissions be capped;

AND BE IT FURTHER RESOLVED:

That Easton hereby;

- calls upon the Massachusetts Congressional delegation to make it a top priority to pass legislation to reduce sulfur dioxide emissions nationwide by 50% within ten years.

SPECIAL TOWN MEETING

Monday, September 17, 1984

At 8:14 p.m. Moderator Richard C. Dailey called the Special Town Meeting to order with quorum present.

The following non-voters were voted to be allowed into the hall: George Mallan and Jacqueline Warren from SEMASS; Howard Shaevitz, DPW Director; Dorothy Antosca and Michael Maguire, Microphone carriers; Stanley Alger from Alger & Gunn, Architects; Ann Carney, Board of Assessors; Karen Siderwicz, Atlas Oil Company; Andrew Miller, Asst. Supt. of Schools; Eleanor Erickson; and Karen McKeown from Ireland.

ARTICLE 1. VOTED to Raise and Appropriate the sum of $3,500 to fund the cost of a Firefighters Entrance Examination. UNANIMOUS VOTE.

ARTICLE 2. VOTED to recommend to the Board of Health that its regulations as to Sewerage Disposal System Permits be amended in the following manner:

APPENDIX C – Amend Section 2B to read:

> Two test holes must be excavated to a depth of not less than ten feet to determine the nature of the subsoil, presence of ledge, ground water, etc. The results must be shown on a Plan. A percolation test must be made at the proposed elevation of the bottom of the disposal field trenches, in the area in which the field is to be located. This must be shown on the engineer's plan. Only one percolation test is required for uniform soil stratigraphy. An allowance must be made for a minimum of four feet between the maximum ground water elevation and the bottom of the disposal field. All percolation tests and final inspections by the designing engineer shall be performed in the presence of a representative of the approving authority.
>
> No percolation tests will be performed during the period June 15th through September 15th. If, in the opinion of the Board of Health or its agent, the percolation rate, soil suitability or water table level is in question, a percolation test will be required to be taken during the wet season, March 1st through June 1st.

ARTICLE 20. VOTED to adopt the following resolution:

WHEREAS acid precipitation in Massachusetts

- is killing fish and other aquatic life in our lakes, ponds and streams, and
- is associated with rising levels of toxic metals in our drinking water, and
- is damaging our Commonwealth's monuments and buildings, and
- is suspected of killing forests, degrading soil quality, and damaging crops;

AND WHEREAS pollution sources within Massachusetts emit significant amounts of sulfur dioxide, and have been estimated to cause between 20% and 30% of the acid deposition within Massachusetts;

AND WHEREAS continuing acid deposition at present levels will cause massive environmental damage to the sensitive water bodies of this Commonwealth;

AND WHEREAS the Governor, acting with and through the Executive Office of Environmental Affairs, has the authority to provide for the protection and reclamation of our natural resources, Pursuant to Massachusetts General Laws, Chapter 6A, Section 2–4 and Chapter 21A, Section 2, among other laws;

AND WHEREAS a comprehensive solution to the problem of acid rain requires prompt, effective Federal legislation;

NOW THEREFORE BE IT RESOLVED:
That Easton hereby:

* commends Governor Dukakis for his initiative in proposing national legislation to control acid precipitation, and
* calls upon the Governor, acting with and through the Executive Office of Environmental Affairs and its Department of Environmental Affairs and its Department of Environmental Quality Engineering, to impose a cap on the allowable amount of sulfur dioxide that may be emitted in Massachusetts and to set this limit at a level equal to the average of Massachusetts' 1981 and 1982 actual emissions, and
* be it further resolved that if this action is not taken promptly by the administration, that the legislature should pass Senate Bill 1240 directing that Massachusetts' sulfur dioxide emissions be capped;

AND BE IT FURTHER RESOLVED:
That Easton hereby:

* calls upon the Massachusetts Congressional delegation to make it a top priority to pass legislation to reduce sulfur dioxide emissions nationwide by 50% within ten years.

REPORT OF THE AMES TRUST FUNDS

The following statement is supplied the Town Treasurer by the office of the Trustees of the Ames Trust Funds.

Following is a summary of the Ames Trust Funds held for the benefit of the Town of Easton as of December 31, 1984, together with an estimate of the 1985 income. The estimate for the 1985 income is based on the amounts which the various companies are now paying. This estimate does not allow for any deductions which may have to be made before the net income is paid over to the Town of Easton, neither does it take into consideration any reductions in dividends which might be made by the various companies.

	Book Value	12/31/84 Market Value	1984 Income Paid to Town	1985 Est. Income to Town

REPORT OF THE TOWN ACCOUNTANT

To the Board of Selectmen:

This department converted its accounting system to the Uniform Municipal Accounting System (Fund Accounting) as directed by the Department of Revenue. We have received the computer as authorized by the recent town meeting.

The Accounting Department will be fully automated during the coming year. We shall be assisting other departments to automate their functions which will improve town government.

This report also includes a Balance Sheet as of June 30, 1984.

Respectfully submitted,

Ernest R. Camara
Town Accountant

BUDGET NOTES

This Budget is submitted by the Board of Selectmen based on fiscal projections available at the time of printing. If additional funds become available, alternate recommendations will be presented by the Board of Selectmen and Finance Committee at Town Meeting.

1. Finance Committee has deleted request for additional Firefighter — EMT

2. Both the Board of Selectmen and Finance Committee at the time of printing had not had sufficient time to review the School Budget in detail. Administrator recommendation is the request of the School Department without modification.

3. The entire Water Division operating budget and portions of the DPW/Engineering, Debt and Interest, Insurance and Pension budgets are paid from Water Division receipts rather than the tax levy.

Section 10. No person shall behave in an indecent or disorderly manner or use any indecent, profane language, make threats or use other language tending to create a breach of the peace in any public place, any street or sidewalk or place to which the public has the right of access in the town or upon any doorstep, portico, or other projection from any house or building or in any other place within audible distance of any dwelling, house or other building thereto.

Section 11. During the months of January, February, March and December of each year no person shall park a motor vehicle on any public way in the Town except in any emergency for a period of longer than one (1) hour between the hours of 1:00 A.M. and 8:00 A.M. of any day.

Section 12. The Town Administrator, when conditions warrant, shall have the power to declare an on-street parking ban for all motor vehicles in cases of emergency, hazardous conditions or natural disasters. Such a ban may include all public ways within the Town of Easton or selectively therein.

Vehicles in violation of said ban shall be subject to towing by authorized agents of the Town as so directed by the Director of Public Works and the cost of said towing shall be borne by the owner. Prior to the towing of vehicles in violation, an effort shall be made by the Director of Public Works, or his authorized Agent, to contact the owner to have it removed from the public way.

Section 13. Any person who shall violate any of the provisions of this By-Law shall be subject to a penalty of not more than One Hundred ($100) Dollars for each offense, except as otherwise provided by law.

Section 14. No Street Opening Permit shall be issued by the Director of Public Works for the period of December 1 to March 31 of the following year except for emergency purposes. Such emergencies shall include, but not be limited to, trench collapse and utility breaks.

Section 15. Each Street Opening Permit shall be valid for a period not to exceed thirty (30) days following its issuance,

or to take any other action relative thereto.

ARTICLE 62. To see if the Town will vote to appropriate a sum of money to pay tuition costs for non-union employees in accordance with Section 13 of Article 14 of the Easton Town By-laws, and to determine whether the money will be provided by taxation or by appropriation from available funds in the Treasury, or take any other action relative thereto.

Submitted by Board of Selectmen

ARTICLE 63. To see if the Town will vote to accept the report of the Planning and Zoning Board concerning the proposed amendment of the Zoning of the Town of Easton by changing the zoning of certain land owned by Michael D. Preskenis and Jeanne K. Preskenis from being Residential to Business, as set forth in Article 64, a copy of said Report being on file with the Town Clerk's Office, or to take any other action relative thereto.

By Petition

ARTICLE 64. To see if the Town will vote to amend the "Town of Easton, MA Zoning Map" dated March 7, 1973 as follows:

By changing the zoning of certain land owned by Michael D. Preskenis and Jeanne K. Preskenis, husband and wife, tenants by the entirety with buildings thereon situated in Easton, Bristol County, Massachusetts, on the easterly side of Depot Street and being shown on sub-division plan 21357 C filed with Bristol Northern Registry District with Certificate of Title No. 5751, bounded and described as follows:

> Northwesterly by Depot Street 236.63 feet; northeasterly by land now or formerly of Joseph J. Gill et al. 409.18 feet; southeasterly by land now or formerly of said Gill 230 feet; and southwesterly by Lot 2 as shown on said plan 457.85 feet, which land is more particularly described in a plan of land to be sutmitted to the Town Meeting and to the Planning Board; from residential to business,

or to take any other action relative thereto.

By Petition

ARTICLE 65. To see if the Town will vote to delete Paragraph (L) of Section 5 of Article 14 of the Easton Town By-Laws in its entirety and insert in its place the following new paragraph (L) of Section 5:

L. "Permanent employees or their heirs shall, upon retirement, disability retirement, resignation with adequate notice, or death, receive an amount equal to 100 percent of the vacation leave accumulated up to the last day of work. This amount shall be computed at the hourly rate being paid to the employee at the time of retirement, disability retirement, resignation or death,"

or to take any other action relative thereto.

Submitted by Board of Selectmen

ARTICLE 66. To see if the Town will vote to accept Longview Drive as a public way from Station 0+0 to Station 0+23.31 as shown on a Plan of Land entitled "Longview Estates" in Easton, MA by Land Surveys Inc., Brockton, dated February 15, 1980 and approved by the Planning & Zoning Board on November 12, 1980 and recorded in the Bristol County Northern District Registry of Deeds, Plan Book 191, pages 52 - 57.

The acceptance of said street is contingent upon the owner of said street conveying the Deed to the land by way of "Deed of Gift" to the Town within sixty (60) days of the vote of such acceptance, and the said Deed to be deposited at the Selectmen's Office with an as-built plan of said land suitable for recording at the Bristol County Northern District Registry of Deeds, together with a payment to the Town covering all recording fees and costs of such instruments at the Registry.

By Petition

ARTICLE 67. To see if the Town will vote to allow the Planning & Zoning Board to establish an Agricultural Advisory Committee, the purpose of which is to protect the primary farmland from development and to adopt the "Land Evaluation Site Assessment" program (known as LESA) developed by the Soil Conservation Service of the United States Department of Agriculture. The Soil Conservation Service will map and list Easton's farm soils to help identify and preserve locally important farmland.

The committee will assign numerical values to all farmland in terms of: parcel's size (a farm of 2 acres scores no points while a farm of 25 acres scores a perfect 10 points); location; present use; distance from urban areas; distance from town water; accessibility; whether open or forested; adjacent land uses; percentage of the site used in the past 20 years for agricultural purposes. A total number is tabulated for each parcel giving it a place of relative importance in the town's agricultural resource listings.

The committee shall recommend farmland protection regulations and guidelines to the Easton Planning and Zoning Board.

The Agricultural Advisory Committee shall consist of five citizens appointed by the Planning and Zoning Board, of which two shall be actively engaged in agricultural or farming activities,

or to take any other action relative thereto

Submitted by Planning & Zoning Board

ARTICLE 68. To transact any other business that may legally come before said meeting.

And you are directed to notify and warn the inhabitants of the Town of Easton qualified to vote in election, residing in Precinct One to meet at the Easton Junior High School Gymnasium and those residing in Precinct Two to meet at the Easton Junior High School Gymnasium; those residing in Precinct Three to meet at the Center School on Monday, April 22, 1985 at 8:00 in the forenoon to bring in their votes all on one ballot for 2 Selectmen for a term of three years; 1 Assessor for a term of 3 years; 1 School Committee member for a term of 3 years; 5 members of the Finance Committee for terms of three years; 1 Board of Health member for a term of three years; 1 Housing Authority member for a term of 5 years; 1 Housing Authority member for a term of 2 years; 1 Housing Authority member for a term of one year; 1 Regional School Committee member for a term of 3 years; 1 Moderator for a term of three years.

The polls will be opened at 8:00 a.m. and shall be closed at 8:00 p.m.

You are directed to serve this Warrant by posting attested copies thereof one at each meeting house and post office in said Town and one at the Oliver Ames High School Gymnasium and one at the Town Office, seven days at least before the time of holding said meeting.

Hereof fail not and make due return of this Warrant with your doings thereon to the Town Clerk at the time and place of holding said meeting and said Town Clerk is hereby required to make return of the Warrant to the Warden or Deputy Warden at the time and place of holding said meeting for the election of officers, and said Warden is hereby required to make return of the Warrant to the Town Clerk, together with his return of Officers elected at the close of said meeting.

Given under our hands this 11th day of March in the year nineteen hundred and eighty-five.

EASTON BOARD OF SELECTMEN

OFFICIAL PROCEDURES TO BE USED
AT
TOWN MEETING

Approved — Town Meeting — May 1978

1. Main Motions:

Debatable

When a motion has been made, seconded and stated by the Chair, the assembly is not at liberty to consider any other main motion until this motion has been disposed of.

2. Motions to Amend: **Majority Vote Required**

Debatable

This motion is to change, add, or omit words in the original main motions.

3. Motion to Amend the Amendment **Majority Vote Required**

Debatable

This is a motion to change, add, or omit words in the first amendment.

Method of Vote: The first vote is on changing words of second amendment. If the first vote adopts the change, the second vote is on the first amendment as changed or amended. The third vote is on adopting the main motion as changed or amended.

4. Motion to Commit or Refer: **Majority Vote Required**

Debatable, Amendable

When a motion becomes involved through amendments or when it is wise to investigate a question more carefully, it may be moved to commit or refer the motion to a committee for further consideration.

5. Motion to Close Debate Not Debatable **2/3 Vote Required**

When debate does not seem to be shedding additional light on a question, you may move to end it by calling the question: "Mr. Moderator, I call the question." You must be recognized by the Chair before making this motion. As soon as this Motion is made, debate ceases and a vote on closing debate is taken. If the motion is carried, a vote is immediately taken on the question under consideration.

6. Motion to Reconsider: **Majority Vote Required**

Debatable

This motion must be made the same day as the original motion was carried or defeated, "A vote can be reconsidered only once."

7. Motion to Adjourn: **Majority**

Debatable

This motion is always in order except (a) when a speaker has the floor, (b) when a vote is being taken, (c) after it has just been voted down (d) when the assembly is in the middle of some business which cannot be abruptly stopped. A definite time and place must be set.

MISCELLANEOUS MOTIONS

These motions (or questions) are not necessarily related to the Main Motion and do not fall within the order of precedence. They may be made as appropriate or necessary.

1. Question of Privilege:

A motion unrelated to the business taking place, e.g. "Question of privilege, please! It is too noisy. I request that the Chair ask that all talking be stopped."

2. Point of Information:

Motion used to ask a question or obtain clarification of facts pertaining to the motion at hand. "Point of information, please! What would be the cost to repair this piece of machinery rather than replace it?" There is no vote or debate. The Chair provides the information sought.

3. Point of Order:

This motion is always in order but can be used only to present an objection to some method of parliamentary procedure. "Mr. Moderator, I rise to a point of order!" Then the objection is stated. There is no vote or debate and the Chair immediately rules on the point of order.

4. Point of No Quorum:

This motion requires no second and is not debatable. No other motion may be applied to it. It may not be used to interrupt a speaker. When the point is properly raised, the Moderator must then ascertain whether or not a quorum exists.
